

HORIZON 2020

Project: European Researchers' Night (NIGHT) "Researchers in the Knowledge Triangle" (K-TRIO 4)

Programme: Horizon 2020 Marie Skłodowska-Curie Actions - European Commission

Implementation period: 2020

Project objectives:

- Raising public awareness of education, research and innovation as main drivers of the knowledge society, with great impact on everyday life of citizens and more sustainable future;
- Changing public attitude to researchers and their work, and enhancing their interest in science;
- Nurturing a new research and innovation culture and attracting young people (kids and students) to STEM and researchers career;
- Increasing the public understanding of European initiatives for building the ERA and making Europe more “green” and competitive through research and innovation.
