

# Tommaso Mazza

2011 | now

Bioinformatics Unit, PI  
IRCCS Casa Sollievo della Sofferenza

2010 | 2011

Researcher in the Laboratory of Translatory  
Genomics  
Centre for Integrative Biology (Trento)

## Research interests

- Network Biology
- Computational and Systems Biology

## About me

MSc (2003) in Computer Science Engineering and PhD (2008) in Computer Science and Biomedical Engineering. Since 2007 I am an ordinary member of the Bioinformatics Italian Society and since 2011 I am PI of the Bioinformatics laboratory at CSS. My research interests range from biological network analysis, computational systems biology, biological modelling, and parallel simulation theory. Associate Editor of Frontiers in Genetics | Computational Genomics, Frontiers in Network Bioinformatics, Briefings in Bioinformatics, Scientific Reports, and MDPI Cancers
