Practical Approaches in Ophthalmology

11-12.11.2016

MU– Varna, Faculty of

Pharmacy – Lecture Hall

Dear Colleagues,

Alcon is a company, specializing entirely in the field of ophthalmology, which has won recognition as a world leader in this field.

Part of our mission is to work for the continuous enhancement of the qualification of health care professionals in the field of eye diseases and to provide access to the latest innovations in medicine and medical technology.

We would like to invite all postgraduate students and young ophthalmologists to take part in a new project, aimed at raising the level of professional qualification and practical skills of young ophthalmologists.

The lecturers are leading specialists in their respective fields of Ophthalmology.

The event is organized by Medical University-Varna with the support of Alcon Bulgaria.

Alcon expresses its sincere gratitude to Prof. Dr. Hristina Grupcheva, DSc, Head of the Department of Ophthalmology and Visual Sciences and Vice Rector for Innovation and Translational Medicine.

Postgraduate students who wish to participate by presenting a clinical case are kindly requested to submit the topic, team and team leader to the indicated in the invitation e-mail address.

Please, confirm your attendance by sending an e-mail to the following address: mina.chilianska@alcon.com, not later than 01.11.2016.
